#### **Establishing an Interagency Task Force on Federal Contracting Opportunities for Small Businesses**

##### *Memorandum for the Heads of Executive Departments and Agencies*

The Federal Government is the world's largest purchaser of goods and services, with purchases totaling over \$500 billion per year. The American Recovery and Reinvestment Act of 2009 (Recovery Act) and other national investments are providing new opportunities for small businesses to compete for Federal contracts, and it is critical that these investments tap into the talents and skills of a broad cross-section of American business and industry. Small businesses must be able to participate in the Nation's economic recovery, including businesses owned by women, minorities, socially and economically disadvantaged individuals, and service-disabled veterans of our Armed Forces. These businesses should be able to compete and participate effectively in Federal contracts.

The Congress has established a number of statutory goals designed to help small businesses compete for Federal contracts. In addition to the goal of awarding at least 23 percent of all Federal prime contracting dollars to small businesses, the Congress also established Government-wide contracting goals for participation by small businesses that are located in Historically Underutilized Business Zones (at least 3 percent) or that are owned by women (at least 5 percent), socially and economically disadvantaged individuals (at least 5 percent), and service-disabled veterans (at least 3 percent). These aspirational goals help ensure that all Americans share in the jobs and opportunities created by Federal procurement.

In recent years, the Federal Government has not consistently reached its small business contracting goals. Although we have made some progress—particularly with respect to Recovery Act contracts—more work can and should be done. I am committed to ensuring that small businesses, including firms owned by women, minorities, socially and economically disadvantaged individuals, and service-disabled veterans, have fair access to Federal Government contracting. Indeed, where small businesses have the capacity to do more, we should strive to exceed the statutory goals. While Chief Acquisition Officers and Senior Procurement Executives have many priorities, small business contracting should always be a high priority in the procurement process.

Obtaining tangible results will require an honest and accurate accounting of our progress so that we can have transparency and accountability
